WORK EXPERIENCE

Ashesi University – Berekuso   **Sep 2024 – Present**
Faculty Intern
- Responsibilities include leading lab sessions, grading coursework, and conducting office hours for student consultation.

Bank of America – London   **Jun 2023 – Aug 2023**
Global Technology Summer Analyst
- Onboarded AMPS logs into the Splunk application while preparing comprehensive documentation for seamless integration and knowledge transfer within the team.
- Developed a dashboard to monitor and diagnose AMPS issues in near real-time, transitioning the team from a reactive to a proactive approach.

PROJECTS

Ashesi Data Repository Project
Frontend Developer
- Collaborated in a team of five to develop a centralized hub for African-centered datasets intended for academic use across African universities.
- Led frontend development using *Next.js* and *Tailwind CSS* and authored comprehensive documentation to support usability and future contributions.

Buddy App   **Apr 2024**
- Engineered a custom algorithm to automate the pairing process by the ODIP department at Ashesi University, tailored for matching freshmen with continuing students, drastically reducing the time from a week with manual, labor-intensive spreadsheet methods to instant pairing.
- Implemented an application using *PHP*, *HTML*, *CSS,* and *JavaScript*, enabling seamless functionality, and eliminating the need for manual intervention in the pairing process for the ODIP department.

CO-CURRICULAR ACTIVITIES

Center for Sustainable Transformation - Accra   **Mar 2023 - Present**
Volunteer
- Conducted educational sessions on climate change and the SDGs at two schools in Jamestown, actively engaging with children to raise awareness and promote understanding of environmental issues.
- Contributed as a resource person for the SDG Hub radio show on Asaase FM, shedding light on the profound implications of improper e-waste management practices in Ghana.

Google Developer Students Club - Ashesi University   **Aug 2021 – Aug 2023**
Lead, Ashesi Chapter
- Initiated the establishment of the Algorithms and Game Development Tracks which caused a surge in club interest and increased club membership by 10%.
- Guided web development sessions as co-lead of the web development track, empowering members to gain practical skills and foster a passion for innovation in web technologies.

SKILLS

- Rudimentary Proficiency in French
- Programming Languages (Proficient in JavaScript, Python, Java, React.js, Next.js, PHP, MySQL)

*Dean's List - Awarded to students with a GPA of 3.5 and above
